CAL INC's Transportation DTSC # is 6424

EPA# CAL000409258

Hazardous waste transporters play an integral role in the hazardous waste management system by delivering hazardous waste from its point of generation to ultimate destination. This includes transporting hazardous waste from a generator's site to a facility that can recycle, treat, store or dispose of the waste. We will work with you to guide you through the NEW EPA E-manifest system! Leave it up to the experts at CAL INC!
