<p>GHS HAZARD COMMUNICATION TRAINING (2 hours)</p> <p>Hazard Communication Standard 1910.1200 (2012) (h)(1) Employers shall provide employees with effective information and training on hazardous chemicals in their work area at the time of their initial assignment, and whenever a new chemical hazard the employees have not previously been trained about is introduced into their work area.</p>	<p>Available upon request. Please call our office for group pricing (707) 446-7996.</p>		

HEALTH & SAFETY TRAINING	INITIAL	REFRESHER	PRICING / HOURS
<p>CONFINED SPACE ENTRY</p> <ul style="list-style-type: none"> Hands-On Requirement & Written Exam Course details safety and health hazards associated with permit-required confined space entry. Topics include recognition of confined space hazards, identification of permit and non-permit required confined spaces, use of instrumentation, etc. Upon course completion students will have the ability to identify permit and non-permit required confined spaces, reference the OSHA Permit-Required Confined Spaces Standard, conduct atmospheric testing, and implement a permit-required confined space program. Changes in assigned permit space program duties or exposure to hazards for which an employee has not been trained are obvious indications of a need for additional or refresher training. Per Paragraphs (g)(2)(ii), (g)(2)(iii), and (g)(2)(iv). 	Available for Groups Only	Recommended annually or whenever there is a demonstrated need for it.	<ul style="list-style-type: none"> \$250 Initial (8 hours) Includes lunch 6 students-minimum Call for availability Pricing is for Vacaville Training Center only.
<p>CONFINED SPACE ENTRY – AWARENESS</p> <ul style="list-style-type: none"> No Hands-On Requirement or Written Exam Course topics include safety and health hazards associated with confined space entry, and the evaluation, prevention, and abatement of these hazards. The course covers OSHA requirements; <u>it does not feature workshops</u> (instrumentation, control methods and testing) which are included in the Permit-Required Confined Space Entry. This course is designed for small employers or a designated representative (line supervisor or manager) with the responsibility to develop a permit-required confined space program. 	Available for Groups Only	Recommended annually or whenever there is a demonstrated need for it.	<ul style="list-style-type: none"> \$150 Initial (4 hours) 6 students-minimum Call for availability Pricing is for Vacaville Training Center only.
<p>SCAFFOLD COMPETENT PERSON / AWARENESS</p> <ul style="list-style-type: none"> Hands-On Instruction 6-hour course provides a comprehensive overview of scaffolds addressing individuals exposed to hazards (including erectors and dismantlers), personnel working on and under scaffolds, and other employees and the general public near scaffolding. Components such as ladders, guardrails, platforms, planks, and associated hazards will be addressed. Includes safety requirements for erection, use and dismantling of scaffolds, and information on inspection, correction of hazards found, and training for scaffold erectors, users and dismantlers. 	Available for Groups Only		<ul style="list-style-type: none"> \$200 Initial (6 hours) Includes lunch 6 students-minimum Call for availability Pricing is for Vacaville Training Center only.
<p>FALL PROTECTION</p> <ul style="list-style-type: none"> Per 1926.503(a)(1), Employers shall provide a training program for each employee who might be exposed to fall hazards. The program shall enable each employee to recognize the hazards of falling and shall train each employee in the procedures to be followed in order to minimize these hazards. Hands-On Training and Written Exam Required. 	Available for Groups Only	Annual Training required per OSHA Regulation 1926.503(a)(1) .	<ul style="list-style-type: none"> \$150 Initial (4 hours) 6 students-minimum Call for availability Pricing is for Vacaville Training Center only.
<p>RESPIRATORY PROTECTION & FIT TESTING</p> <ul style="list-style-type: none"> Available to individuals (class size of 6 required). On-site training is available but different pricing applies for travel, etc. Per 1910.134(k) training and information. This paragraph requires the employer to provide effective training to employees who are required to use respirators. The training must be comprehensive, understandable, and recur annually, and more often if necessary. This paragraph also requires the employer to provide the basic information on respirators in appendix d of this section to employees who wear respirators when not required by this section or by the employer to do so. Fit testing available (respirators and proof of medical clearance required) 	Available for Groups Only	Annual Training required per OSHA Regulation 1910.134(k) .	<ul style="list-style-type: none"> \$150 Initial (4 hours) 6 students-minimum Call for availability Pricing is for Vacaville Training Center only.
