TRAINING & CERTIFICATION

Since 1979, we have provided both environmental remediation contracting and training services for Asbestos, Mold, Lead-Paint and Hazardous Materials. **Our staff is made up of experienced and certified instructors, project managers, superintendents, laborers, and administrative professionals.** Our goal at CAL INC is to educate our team and others about the safety protocols and required methods to clean up residential, commercial, and industrial spaces.

CALINC was also the first training provider to be approved to deliver DOSH accredited asbestos training courses in California. We take a lot of pride in this distinction and in helping fellow California contractors to manage asbestos while on the job.

CAPITALIZE ON THE VALUABLE RESOURCES OUR TRAINING FIRM HAS TO OFFER! GET CERTIFIED TODAY!
